

XM radio is the best thing that's happened to all of us that are stuck in our cars in traffic. Please don't let the lobbyists and NAB's petition 04-160 get through and deny free access to traffic and other local info through XM. Representatives Charles "Chip" Pickering (R-MS) and Gene Green (D-TX) have introduced a bill in the House of Representatives, HR 4026, which represents another attempt by the National Association of Broadcasters (NAB) to restrict satellite radio from offering traffic and weather and other valuable services to XM listeners.

I am against this bill and any simular actions that force me to listen to commercials just for a traffic report.
thanks for listening
Shep Griswold
